# CLERK'S CLIPS

Vol. 1, Issue 10

To the Citizens of Madison County,

The staff at the Chancery Clerk's office would like to dedicate this edition of our newsletter to the Chancery Clerk, our "BOSS", **Arthur Johnston**. In doing this, we would like to acknowledge just a few of his major accomplishments. Since Arthur has been elected, many

positive changes have taken place within the Chancery Clerk's office to benefit the efficiency of the office and to better serve the public. Arthur has been very instrumental in developing a well-designed and informational website for our office. All land records, subdivision plats, board of supervisor's minutes, court docket records, among many other filings are available online. His goal for the end of this year is to have the records available online for at least 32 years prior. Also a major accomplishment for our office is the implementation of a credit card machine. We can now accept payments for anything from delinquent taxes, to recording fees, to court costs, etc., by use of a credit card. This is a great convenience for the public. Another great asset for our office is the ability to apply for a passport directly in our office. We have the applications available and also have the capability to take photos for passports. As you can see from just a few of his many accomplishments listed, Arthur has proven himself to be an *outstanding* boss and a remarkable leader in our county. We also believe the citizens of Madison County hold this to be true of him, since he is not facing any opposition this term. We look forward to working for Arthur for at least another four years, and we pledge to continue to strive in making the Madison County Chancery Clerk's office one of the best in the State of Mississippi. Thank you Arthur and citizens of Madison County for your support and confidence!
