Statement by the Madison County Board of Supervisors Regarding the Coronavirus

Like many of you, we have been monitoring the Coronavirus and the impact it is having on our fellow Mississippians. First, to those impacted, we offer our thoughts and prayers for a quick recovery.

At this time, Madison County does not have any confirmed cases of the virus. We encourage you to visit the websites of the [Centers for Disease Control](https://www.cdc.gov) and the [Mississippi Department of Health](https://www.dhs.gov) for suggestions regarding the virus and how to minimize its spread.

Regarding Madison County government, all of our offices are scheduled to be open. Please keep in mind, our regularly scheduled Board of Supervisors meeting on Monday, March 16, 2020, will be livestreamed via our website, www.madison-co.com.

You may also find our website as a helpful place by which to conduct some county business.

In addition, you may renew your car tag using the drive-thru lanes at 117 Cobblestone Drive in Madison.

We will keep you posted if any county government business is impacted due to the virus.
